

Fall 2010

Many exciting things this Fall at the YA YA Farm and Orchard!

- ◆ Apples, apples, and more apples. We had a fabulous Spring for the blossoms. The trees are heavy with fruit. Nothing like a real apple, imperfections and all!
- ◆ 4 baby Percheron horses are with us! Foals started dropping in June and finished early August. There are four very proud mommas who want to show off their beautiful babies.
 - ~ Misty, a dapple grey momma, has a colt, Stormey. Stormey was born black but is now turning dapple like his mom.
 - ~ Starlight was 2 months early. The vet said the Ice Crystal is the largest foal he has ever seen. Crystal is huge - was premature simply because momma did not have any more room. She was born with a mousey coat, but is now turning into a beautiful black.
 - ~ Leah also was 2 months early. Leah's little gal was born on July 4th and sports the name Ice Cream Sundae's Delight. We call her Sundae. She is coal black, and knows she is beautiful.

She

and All of the babies have been handled with love from the time they were born. They love to run and show off for you, but also love to come up and get their share of love.

- ◆ Another 250 trees were added to the orchard this past Spring. We are just completing the irrigation system as well. Another 200 or so trees next spring and the orchard will be complete, a labor of love started in 2005.
- ◆ Apple cider donuts!!! Yes, the beloved Donuts! They will be back this Fall - come get your fill!!
- ◆ Silo Painting - Another exciting activity at the farm! Local artist, Don Faast, will be transforming the farm silo into a piece of artwork. He will be working on site during orchard hours so you can watch him paint. (www.donfaast.com)
